

FUOS Grading System

Level 1

These are people who have shown great interest in what you do and would like to talk with you further.

You may meet 1 or 2 level one's at any event.

Level 2

These are people who have shown some interest in what you do. Maybe you had a great conversation, but they did not come out and ask for an appointment or for more info.

This level makes up a majority of people that you meet.

Level 3

These are people you may have spoken with briefly, but they showed no interest or you didn't have time to chat with them in depth. They were nice and professional.

You will meet a few people like this at every event.

Level 4

There were rude people that you run into at events sometimes. You don't have time for them throw their card away and run.

(Because they probably didn't ask for your card anyway.)
